Configure Custom Markdown Percentages

Configure custom markdown percentages for use with the webRF markdown feature.
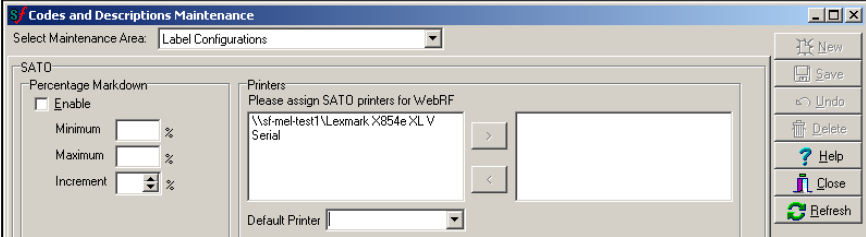

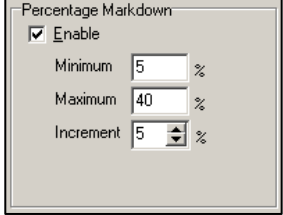

Procedure to Configure Custom Markdown Percentages

Hints and Tips

✓ To see your custom markdown percentages in webRF you must have a markdown reason code(s) set.
See **TECH-01i Configure POS BOS Reason Codes.**

✓ If webRF was open whilst this was configured you must log out then log in for it to be visible.

1.	From the HOS/BOS **Tools** menu, select **Codes and Descriptions.** *Or select the Codes and Descriptions shortcut.*	
2.	Click the **Label Configurations** tab.	
3.	Click ☑ Enable.	
4.	In the **Minimum** field, type the lowest markdown percentage you wish to give.	
5.	In the **Maximum** field, type the highest markdown percentage you wish to give.	
6.	In the **Increment** field, type the increments you wish to see in webRF from the lowest markdown percentage to the highest.	
7.	Click 💾 Save.	
8.	The custom markdown percentages set in Codes & Descriptions will now be visible when doing markdowns in webRF.
